

COVID catch-up premium report

COVID catch-up premium spending: summary

| Total number of pupils: | 39 |
|------------------------------------------------|----------|
| Amount of catch-up premium received per pupil: | £240 |
| Total catch-up premium budget: | £9360.00 |

#TransformingLives

Strategy statement

We firmly believe that the pupils and staff at Phoenix, as pupils and staff across the whole of the country, have suffered a major trauma in the partial closure of schools due to COVID 19 and the disruption to their normal routines. Due to the high level of need of all of the pupils, good, strong relationships and routines are at the centre of everything that we do at Phoenix and unfortunately due to the time that pupils spent away from the Academy these relationships have had the potential to become fractured and routines unestablished. It was felt that the priority for returning to the Academy was to rebuild trust, repair these relationships and to reestablish routines and expectations of our learning provision.

At the Academy, we recognise that no academic learning can or will take place until pupils are in the correct emotional state to be "ready to learn". Therefore, much of our return strategy had to consider how to best support pupils mental health and well-being in the context of their SEMH needs. This meant that a much more "relaxed" approach to the academic curriculum was adopted, identifying that the primary objective for a lot of the pupils was simply "to access the school day safely". This meant working closely with pupils to identify strategies to support them when they felt overwhelmed and interventions that could be put in place, on an individual as well as class level, to help build them back up to the expectations of the academy day. Staff were encouraged to use the first few weeks to establish their expectations, modelling pro-social behaviours and help pupils to identify when interventions were necessary to help them self-regulate. Staff planned activities that were non-threatening and allowed children to build their self-esteem and feel a sense of achievement and success before challenge could be built in if appropriate. Positive reinforcement and an increase of positive capacity has always been part of our ethos and staff continued to build on this as pupils returned.

It is strongly felt that only when pupils had once again made connections, felt a sense of belonging and a sense of community that they would be in a position to catch up on missed learning.

Barriers to learning

| BARRIE | BARRIERS TO FUTURE ATTAINMENT | | | | | |
|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|--|
| Academ | Academic barriers: | | | | | |
| А | Pupils have been baselined and 100 % are working below age related expectations in all subject areas | | | | | |
| | Baseline data indicates that SATs attainment and progress outcomes might be lower than would be expected, when measured against prior data. | | | | | |
| В | Restrictions caused by Covid, preventing, to an extent, the delivery of aspects of the wider curriculum, particularly in relation to personal development and enrichment activities | | | | | |
| С | Staff absences, across all sectors, resulting in interruptions to the delivery of a consistent curriculum and the delivery of interventions, both academic and for SEMH. | | | | | |
| D | Significant reduction in opportunities to engage parents in children's learning e.g. shared learning afternoons; assemblies; plays; face to face meetings. | | | | | |
| E | Low- socio economic background: High percentage of pupil premium 73.2% (school) compared to national average 17.3% | | | | | |

| ADDITIC | ADDITIONAL BARRIERS | | | | | |
|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|--|
| Externa | barriers: | | | | | |
| A | A significant increase in the number of children/families needing emotional and mental health support, in relation to previously identified and new children/families | | | | | |
| В | Parents are reluctant to push their children when it comes to completing working homework as it can be a negative trigger for behaviour at home. Some parents have expressed concerns around blearing the boundaries between home and school as the expectations are different. | | | | | |
| с | Inconsistency and/or lack of technology for some families to support with remote learning. | | | | | |
| D | As all pupils have additional needs it means they need support from home to complete remote learning and continue to engage – this places extra stresses on families/carers | | | | | |
| E | Fluctuating attendance for individuals or whole bubbles causes disruption to education and further widens gaps for individuals/classes | | | | | |
| F | Lack of support from some parents, resulting in poor attendance and/or a lack of engagement with remote learning. | | | | | |

Planned expenditure for current academic year

| Quality of teaching for all | | | | | | |
|----------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|----------------------------------|----------------------------|--|
| Action | Intended outcome and success criteria | What's the evidence and rationale for this choice? | How will you make sure it's implemented well? | Staff lead | When will you review this? | |
| The purchase of Laptops for pupils to use inside and outside of the Academy. | Pupil's learning is not hindered by a lack of technology. Pupils to gain competence in using online learning platforms to engage in learning. | Guidance supports pupils needing to have access to IT at home. Pupils are proved to learn better using laptops than tablet/phones | Tracking and monitoring of online engagement Feedback from parents/carers through safe and well calls | Dan Crowther / Jade Greenwood | Half termly | |
| The purchase of Dongles for any pupils that have no access to the internet at home. | All pupils have access to the internet if having to work from home and are not disadvantaged due to lack of Wifi at home. | Pupils will miss out on opportunities to learn remotely without access to Wi fi | Ensure devices are made available for any pupils that have no wi fi access | Elyse Phillips | Weekly | |
| The purchase of Doddle Maths software. | For pupils to have access to software to support their learning in maths – to work on specific gaps in learning identified through teacher assessment | Pupils will have opportunities to access maths software if having to work remotely that is at their level and progressive and specific to gaps identified | Teaching staff to be trained to use the software affectively Pupils taught to use | Suzie Jaques | Spring Term | |

| Action | Intended outcome and success criteria | What's the evidence and rationale for this choice? | How will you make sure it's implemented well? | Staff lead | When will you review this? |
|--------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|----------------------------|
| The purchase of Doddle Reading software. | Provide pupils and families a wider range of programmes for them to access from home. | Pupils need to have access to a rich array of reading materials to support their learning | Teaching staff to be trained to use the software affectively Pupils taught to use | Jade Greenwood | Spring Term |
| The purchase of Shine a Software programme to identify gaps in learning. | To identify individual pupil gaps in maths and rand give planned specific interventions for staff to further support pupils. | Supported by FFT assessment allowing pupils assessment results to create specific interventions | Teaching staff to ensure data from testing is used to inform interventions Analysing results to inform quality first teaching and gaps are supported with interventions | Suzie Jaques | Spring Term |
| The purchase of Nessy Reading and Spelling | For pupils to have access to high quality software to support their progression in Reading and Spelling | Proven programme to support progress | Monitor pupils engagement and assess for progression and use of software | Suzie Jaques | Spring Term |
| Total budgeted cost: | | | | £9142.00 | |

| Targeted support | | | | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|-------------------|----------------------------|
| Action | Intended outcome and success criteria | What's the evidence and rationale for this choice? | How will you make sure it's implemented well? | Staff lead | When will you review this? |
| Allow teachers to deliver lessons from home, for example, if they are self-isolating | Ensure children who are not in school, can be taught as closely to normal, as possible. • Ensure children have opportunities for daily interaction with staff or pupils for continuity and routine Supports continual relationships between pupils and staff | For pupils to feel less anxious and still connected to school even if they have to engage in remote learning. | Monitoring of pupil engagement Regular discussions with staff to make adaptions to the provision to meet individual needs. | Elyse Phillips | Weekly |
| To provide children with SEMH needs targeted support to enable them to manage their behaviour & be ready to engage with learning | Reduction in behavior incidents and pupils demonstrate they are ready to learn through prolonged periods of positive engagement | Successful implementation of restorative behaviour practices shows positive effects. | Monitoring of behavioural incidents to ensure staff are meeting pupils' individual needs | Janet Smith | Weekly |
| Interventions for pupils to support with maths using pre-teaching | Progression in core subject – pupils are to feel confident in lessons | Pre-teaching helps to abate anxieties allowing pupils to feel calm when they approach new concepts and skills | Monitoring of engagement in class and time off task | Jade Greenwwod | Weekly |
| Total budgeted cost: | | | | £0.00 | |

| Other approaches | | | | | |
|----------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|--------------|----------------------------|
| Action | Intended outcome and success criteria | What's the evidence and rationale for this choice? | How will you make sure it's implemented well? | Staff lead | When will you review this? |
| Appropriate support in place from external agencies | For pupils to get specific professional interventions to support their emotional health and well being | Pupils will make more progression towards their EHCP targets if they are given these tools of support. | Regular meetings with external agencies to ensure that adaptions are made so pupils can access these services. | Lucy Dawes | Weekly |
| | That pupils will continue to progress emotionally | Ed Phys provide schools with advice and guidance to best support individual pupil needs and aid their development and progression. | Assess pupils through behavioral incident logs | | |
| Family intervention workers to support pupils identified as needing additional support | That pupils have a trusted designated member of staff that they know they can engage with | Pupils have shown significant improvements in behaviors due to these interventions in the past. Proven model in the Academy to support pupil's mental health and well -being and an excellent link. | Monitoring of pupils behaviours in school – through class Dojos and incidents recorded | Lucy Dawes | Half termly |
| The purchase of rewards and certificates for competitions | To encourage and motivate pupils to engage in learning and feel that the work they produce is valued and rewarded | Positive encouragement and praise supports pupils well- being and thusly supports learning. | Through the monitoring of pupils engagement in lessons both remotely and in school | Laura Tasker | Weekly |
| Total budgeted cost: | | | | | £218.00 |
