

16th June 2025

Dear Parents/Carers,

As a group of primary academies, we are committed to ensuring that all children have equal access to our education offer while at any of our schools. We do not want anyone to be disadvantaged due to socioeconomic reasons.

We have worked together to share best practice from within our trust and from other sources and research. As a result, we have created our Poverty Proofing ATT way document.

Attached is everything included in our pledge along with some additional ideas that are specific to your child's academy. This will be in place from this September. Ahead of this we will send out further communication to explain how this looks in our academy.

Kind Regards

Miss E. Phillips
Principal
